THE MARKET STAGNANT

DULLEST DAY IN STOCKS IN MONTHS ON NEW YORK 'CHANGE.

Speculators Trying to Figure Out What the Gold Exports Mean-Local Markets Active.

At New York yesterday money on call was easy at 14@14 per cent.; last loan, 11/2; closed, 11/411/2 per cent.

Prime mercantile paper, 31/44 per cent.

Sterling exchange was steady, with actual business in bankers' bills at \$4.87%@ 4.87% for demand and \$4.86% 774.86% for sixty days; posted rates, \$4.87@4.871/2 and \$4.881/2@ 4.89; commercial bills, \$4.851/2. Silver certificates, 613, 662c; bar silver,

61%c; Mexican dollars, 48%c. At London bar silver closed at 2814d per ounce. Total sales of stocks were 91,315 shares, including the following: American Tobacco.

4,700; Sugar Refinery, 11,500; Burlington & Quincy, 11,000; Chicago Gas, 15,800; Louisville & Nashville, 3,600; Reading, 4,900; St. - Paul, 5,600; Western Union, 8,300; New Jersey Central, 5,100.

The duliness of the stock market yesterday has not been equaled for many months, but there was firmness manifested in prices and an undercurrent of strength that refused to yield to some very discouraging circumstances. The total transactions of the exchange fell considerably below 100,000 shares and only three stocks, Chicago Gas, Sugar and Burlington, were dealt in to exceed 10,000 shares. The market for Americans in London also was dull himp coke, \$2.75; foundry coke, \$6 per ton. and neglected and even the professional traders found little to interest them. There is no doubt that the partial suspension of trading was partly due to the uncertainty regarding the dimensions likely to be assumed by the gold export movement. Experts differ as to how far the gold movement is due to the premium on gold in London and how far to natural trade con-The new anouncement yesterday that a further shipment of gold will made next Tuesday to the amount of \$500,-000 by a Boston house shows that the fall in the exchange rate to \$4.87\2 for demand sterling was not low enough to prevent shipments, although it is 14c below the point which exchange houses agreed on last week as necessary to assure them suffi-cient profit to make it worth while to ship gold. The effect on the stock market was sentimental to a large extent, it having become a habit during the period of the depleted gold reserve which acompanied the last outward gold movement, to sell stocks on every announcement of exports of gold. Notwithstanding the partial stagnation of trading the net result of the day's trading was an average gain of a fraction and the upward movement of stocks was only interrupted by depression in special stocks. New Jersey Central was one of these and it declined 21/3, recovering only 3/8 per cent. The other Coalers showed the most marked declines in sympathy. Western Union was also heavy in the early dealings, but more than recovered the loss. Baltimore & Ohio sagged 14 on the issue of additional receiver's certificates and rallied 34. Chicago Gas fluctuated irregularly over a range of 1%, but ended with a net gain of ½. The very favorable March statement of Burlington showing an increase in the net earnngs of \$287,000 did not impart great strength to the stock as it had been bought recent-

y on the supposition that the increase would amount to \$400,000. The closing was quiet but firm and a shade off from the top The bond market ruled firm on moderate dealings. Variations in the leading speculative issues were exceedingly narrow and although a greater variety of the usually nactive mortgages were dealt in than for some time, the changes lacked significance. The aggregate sales were \$917,000.

Government bonds displayed an improved tone and gained slightly on light purchases. The transactions were \$4,400.

The following table, prepared by L. W. Louis, Room 11. Board of Trade, shows the range of Open- High- Low- Closing. est. est. Adams Express Alton & Terre Haute..... American Spirits pref..... Thursday's Bank Clearings.
At Chicago-Clearings, \$14,132,682. New York exchange, 60c premium. Foreign exchange steady; demand. \$4.87%; sixty days, \$4.86%.

Memphis-Clearings, \$219,026; balances, Louis-Clearings, \$4,209,182; balances At New Orleans-Clearings, \$1,182,671, At New York-Clearings, \$91,689,175; balances. Boston-Clearings, \$15,092,861; balances. At Baltimore-Clearings, \$2,222,207; balances. At Philadelphia-Clearings, \$9,372,300; balances, \$1,264,451.

At Cincinnati-Money, 3@6 per cent. New York exchange, 25@30c premium. Clearings, \$2,310,750. LOCAL GRAIN AND PRODUCE.

Trade Improving with Each Day, and Prices Generally Firm. many lines each day is showing an prices in most lines prevail. Dry goods of all \$4.25@4.50; English, choice, \$4.50@4.75; alsike, descriptions are firm and selling more freely. choice, \$4.75@5; alfalfa, choice, \$4.40@4.60; crimson or scarlet clover, \$2.75@3; timothy, 45 lbs, prime, \$1.30@1.40; strictly prime, \$1.40@1.60; fancy

oing more business and wholesale grocers and tardware men are enjoying a good trade. On ommission row it is quite difficult to keep up the goods required, as there seems to be a scarcity of everything except Irish potatoes. Onions, cabbage, bananas, oranges and apples are all in light supply and firm at the prices quoted. Poultry, on increasing receipts, rules easier. Eggs are steady at 7½c, paid by shippers. The flour market is dull and prices unchanged. Hay is more active and prices firm at quotations revised by the Board of Trade. The local grain market is active. Receipts of corn are larger, but prices well held. Track bids yesterday ruled as follows: Wheat-No. 2 red, 89c; No. 2 red, 85@87c; No. red, 797632c; wagon wheat, 80c. Corn-No. 1 white, 264c; No. 2 white, 264c; No.

3 white, 26%c; No. 4 white, 23%c; No. 2 white mixed, 24c; No. 2 white mixed, 24c; No. 4 white mixed, 24c; No. 3 yellow, 24c; No. 4 yellow, 2112c; No. 2 mixed, 24c; No. 3 mixed, 24c; No. 4 mixed, 2132c; ear corn, Oats-No. 2 white, 21½c; No. 3 white, 20c; No. 2 mixed, 19½c; No. 3 mixed, 17½c.

Hay-No. 1 timothy, \$969.50; No. 2 timothy, \$8.5069; prairie, \$6.5067.

Poultry and Other Produce.

(Prices paid by shippers.)

SUGAR BEETS.

Their Cultivation in Indiana-Purdue's Stock of Seed Exhausted.

The agricultural experiment station of Purdue University, Prof. C. S. Plumb, director, has issued the appended bulletin: "Early in April the Indiana agricultural experiment station received a quantity of sugar beet seed sent to it by the United States Department of Agriculture for distribution in this State. By arrangement with the government, this seed was to be distributed to persons in Indiana who would agree to grow a certain specified area of beets under the direction of the station, and at the proper time would harvest the roots and send samples to the station for examination for sugar content.

"This seed has now been distributed to the proper parties in Indiana, and the station will be unable to send out more this season. This statement is made for the benefit of those contemplating writing for seed, and as explanatory to those who have written for seed that has not been sent "A great deal is being said and written at the present time concerning sugar beet culture in the United States. Beet sugar factories are being built at several points,

and farmers are planting sugar beet seeds in many States this spring. It will interest the readers of this journal to know that the Indiana experiment station for nine consecutive years has been engaged in growing sugar beets and studying the adaptability of this State to profitable sugar beet culture. In February, 1891, a bulletin was issued by the station containing information on seed, climate, soil, planting, cultivation and harvesting of sugar beets, with results of sugar tests of beets grown in different counties of the State under the direction of the station or the United States Department of Agriculture. In April, 1892, another bulletin contained additional information along the same line, with results of examination of many beets grown under station direction in different counties in 1891, was published. This bulletin also contained an account of a new disease of sugar beets. In 1892 beet seeds were sent to 250 points in ninety-two counties in Indiana by the station, and a bulletin in March, 1893, contained a report of this work. In the spring of 1893 seed was sent to 167 substations. In March, 1894, a twenty-eight-page illustrated bulletin on sugar beets, containing much information with many more Indiana tests, was published. In March, 1895, another bulletin contained considerable data along the same line, with analyses of beets grown in twenty-three different counties of the State in 1894. In both 1895 and 1896 beet experiments were continued, and the same may be said for 1897, on a better scale than ever

"This station has demonstrated that Indiana is in the beet sugar producing though the work of 1897, At is hoped, will add much to our data on the subject. "The station will be glad to assist all persons in the State who may desire information in future on the sugar beet ques-

The Proof. Washington Post. I think it is in a Charles Sprague Pearce painting up in the new library that there is the picture of the ultra-red-haired v.on an. I am not quite sure of the artist's na; but the hair is quite the reddest thing ever saw. The new senator's wife was to there not long ago with the wife of one of her husband's constituents. They were gazing at the painting, and the new senator's wife said:
"Well, art or no art, I never saw hair said the constituent's wife. "I don't believe there ever is hair that color. Just then a voice broke in behind them. "Pardon me," it said, "but there is hair that color. I have it.' The two astonished women turned, and

AFTER A RANGE OF 2C

WHEAT CLOSED ON ONE OF ITS RAL-

Weakness Developed in Other Grain, Causing Declines - Provisions

CHICAGO, April 29 .- Wheat to-day outdid all of its recent eccentricities. It boiled and froze alternately and kept on the jump the few traders who had nerve enough to keep hold of the market. It closed at an advance of 4c after a range of 2c. The weather played quite an important part in the gyrations of the market. Corn lost 4c and oats the same, while provisions advanced 21/2/071/2c.

Wheat started as it did yesterday, with a general feeling that a rally was about due. July opened at an advance of from %e to 1/2c, the first trades being at 701/2c and 70%c, with one or two transactions as high as 70%c. That was the highest price paid in the first two hours of the session, but in that time the market rose and fell in a manner that was bewildering, not to say dangerous. One feature of the speculative market was the gradual disappearance of the May premium, which was about 1c at the opening, but before noon was nearly all lost. The opening firmness was partly due in Kansas and Nebraska and more rain in pected in view of the decided break on this and billets, \$14.75@15. side yesterday. But the advance started freer realizing sales, and the market, once started, went to 691/2c in a hurry. The scalping element in the crowd have largely thus reduced it takes very little to start it gradual at first, but became more pressing about an hour from the close, by which time July had risen to 71%c. San Francisco advices reporting dry weather continuing and temperature rising had something to do with the strength that developed, and a strength of that market due to continuation of drought in Russia was another factor. Liverpool closed weak at 4/414d decline. Northwestern receipts at Minneapolis and Duluth were 390 cars, against 307 a week ago and 290 last year. Chicago receipts were four carloads. Atlantic port exports of wheat and flour were equal to only 75,000 bushels. A late report from San Francisco giving the signal service as predicting the possibility of rain to-morrow caused the market to take another sudden tumble in the last half hour, July winding up the day at 70% bid.

Corn was quiet and easy, with some May pressure. The wet, cold weather had a strengthening effect at first, but prices weakened easily to liquidation which started on predicted weather improvement to-morrow and consequent increased receipts. The shipping demand was slow, Exports were 890,000 bushels. July opened unchanged at 25%c and slowly sold down to 2514c, where it closed.

In oats liquidation of May on a small scale was the cause of a weak market. There was a good demand at the decline, but not enough to absorb offerings, and the market was weak throughout. Exports were 150,000 bushels. May opened un-changed at 181sc. It declined to 173c and reacted to 17%c, where it closed. Provisions had a rather easy start, due to the weakness of yard prices, but the market soon became firm and remained so. Prices have declined for three days, and today saw a natural reaction. The Cudahys led the buying. At the close July pork was 7½c higher, at \$8.55; July lard about 5c higher, at \$4.17½@4.20, and July ribs 7½c higher,

Estimated receipts on Friday-Wheat, 4 cars; corn, 206 cars; oats, 240 cars; hogs, 23,-Leading futures ranged as follows

Iron and Steel. PITTSBURG, April 29.-The American Manufacturer will say to-morrow: The local iron and steel market appears to show more signs of improvement than does the trade at other points from which we receive reports. In the Eastern market Southern pig iron is further pushing down values and Alabama iron has been sold during the past few days at the lowest prices on record. Moreover, it is feared that lower rates will be reached. Finished iron in the Eastern market is very slow and there is almost nothing doing in billets. A little better demand for beavy sheets is noticeable and, as usual, bigger business in structural material is expected. Chicago reports one encouraging feature in the pig iron market. Small founders and other light consumers, who have not been seen on the market for a long time, are now ordering more, showing more exto the bad weather, frosts being reported | tended consumption. Structural material is unusually quiet in this market. Cincinnati reports the Northwest, while the English market from is quoted at \$8.75@9; Bessemer, \$9.50@10; best was holding with more steadiness than ex- | muck par iron, \$1.00g1.10, common, bars, \$50@\$1; steel rails, \$19@20; Bessemer blooms
